About Us and Infrastructure.

Production Process With Ideas For Better Metal Finishing..

'Classic Electrocoating Pvt. Ltd', has installed highest capacity plant for Powder Coating & Electro Colour Anodising with the latest technology to offer a variety of guaranteed architectural coatings on aluminium. C.E.P.L has the biggest infrastructure in coating field on Gujarat level.

We are in technical co-operation with leaders in the field of respective coating. Our Production capacity is largest in the country and we intend to pass all the advantage at economy scale to our valuable customers. With a big storage capacity for raw and finished extrusions, we are **Approved Vendors** to the most reputed extruders and top line aluminium fabricators.

Land Size:
21,700 Sq / ft

Constructed Area:
9,500 Sq / ft

Storage:
4,700 Sq / ft

Our Story.

'Chairman Mr. Ashokbhai D. Jangid', started this business as a proprietor firm for Powder Coating in year 1991 under the name of 'CLASSIC POWDER COAT' in Ahmedabad. Due to a growing market demand for Anodise and special finishes it offers, they decided to setup the largest class surface finishing plant. **C.E.P.L** (Classic Electrocoating Pvt. Ltd.) has a clear vision, determination and focus to offer the best finished facility in the industry.

Vision.

To introduce world class coatings in India which ensures the highest blend of aesthetics, quality standards and lasting value as compared to any place in the world.

Mission.

To provide superior quality of coatings and meet changing expectations of developers, fabricators and consultants with a view to add worth to the client's project.

1

Powder Coating Services.

Adding Life And Value To Facades

Since we are entering a conserving nature powder coating, an environment friendly coating becomes increasingly relevant to the architectural coating requirements. Powder Coating is the most popular surface coating media that serves a vast number of applications such as aluminium and ferrous components in the architectural and general industry.

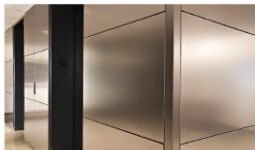

Powder Coating is also offered in different finishes such as structured effects, antique effects, pearl effects and feather touch effects which can either be matt or glossy. Besides conventional RAL shades, powder coatings are also available in metallic and sahara effects.

Our Offerings:

- EPOXY** // For Interiors
- EPOXY POLYESTER** // Normal Powder Coatings
- POLYESTER** // PP or PEF
- DURABLE** // PE - F - AAMA 2603
- SUPER DURABLE** // PE - SDF AAMA 2604
- HYPER DURABLE** // AAMA 2605

We offer the world's best metal finishes in Class - 1 Anodizing. This process involves developing an oxide layer on the aluminium surface that is harder than the original surface, hence making it more corrosion - abrasion resistant. Our Class -1 Anodizing not only protects aluminium from corrosion but also adds to the aesthetic appeal and increases life of aluminium.

Other than architectural application's, a lot of industrial and electrical applications, cable trays, heat sinks, fabricated products, aluminium gratings are anodized in the modern world. We offer Anodizing upto 25 microns thickness in a variety of shades using imported chemicals from world leaders.

Our Offerings:

Silver Steel Finish

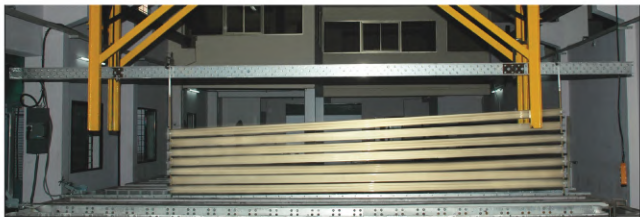

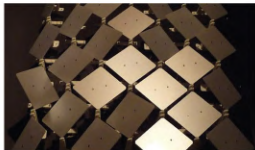

Champagne

Light Bronze // Medium Bronze

Dark Bronze

Black Shades in satin

and matte finishes.

3 Wood Effect Coating Services.

Eco - Friendly Substitute For Wood And Marble

Our Natural Coatings are best substitutes for Wood and Marble are a dream come true for architects and modern designers.

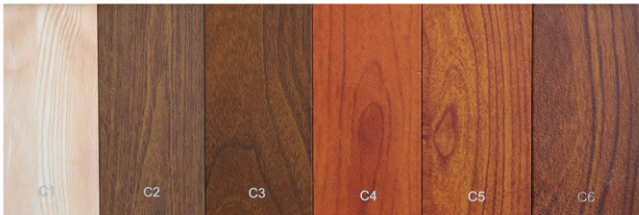

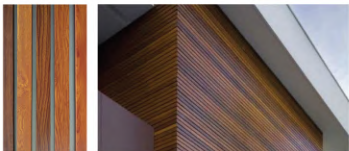

Making windows and doors in marble is not practical whereas making windows in natural wood is expensive and requires stringent periodic maintenance.

Therefore, we offer 'Natural Coatings' which are not only maintenance free and long lasting but also offers true value for money. Be it a specimen of any type of wood, veneer or marble, we use sophisticated computer scanning and graphic techniques that will offer you the same texture on any substrate and make it look natural. These coatings are warranted for external use and can be done on any surface.

Our Offerings:

- Pino
- Ciliegio Mediterraneo
- Ciliegio Salonicco
- Teak
- Noce
- Quercia
