Powder Coating

Wood Effect

Wood Effect Coating Services.

Eco - Friendly Substitute For Wood And Marble..

Our Natural Coatings are best substitutes for Woodland Marble and are a dream come true for architects and modern designers. These coatings offer the largest range of wood effects and marble finishes. Making windows and doors in marble is not practical whereas making windows in natural wood is expensive and requires stringent periodic maintenance.

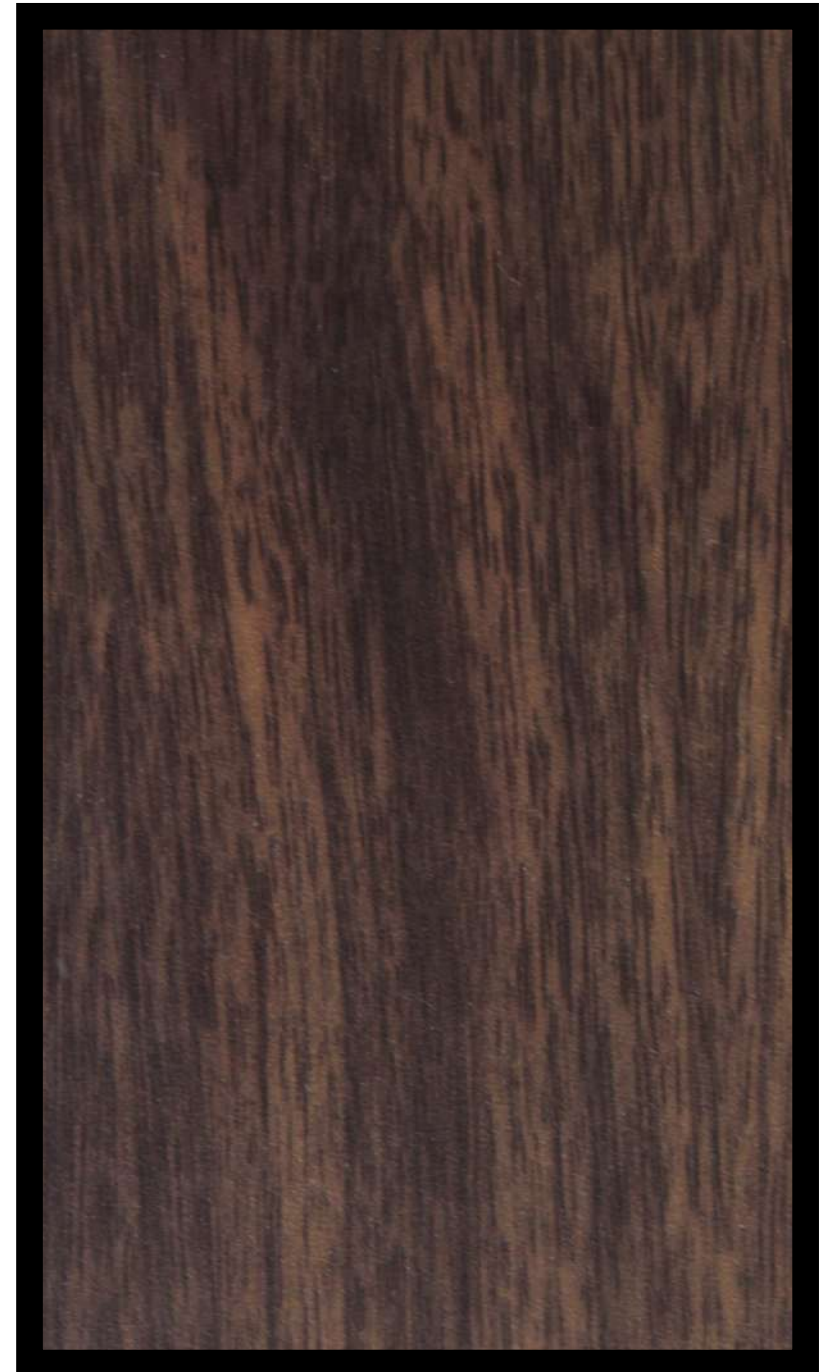

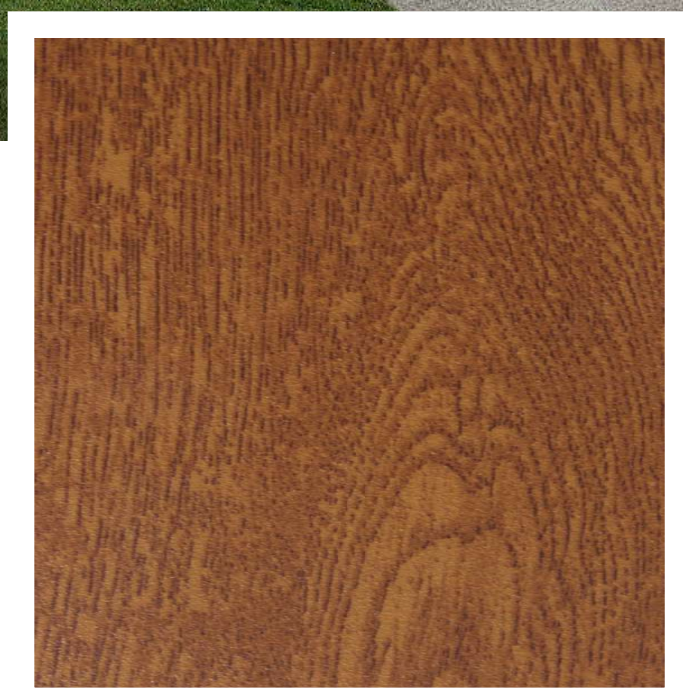

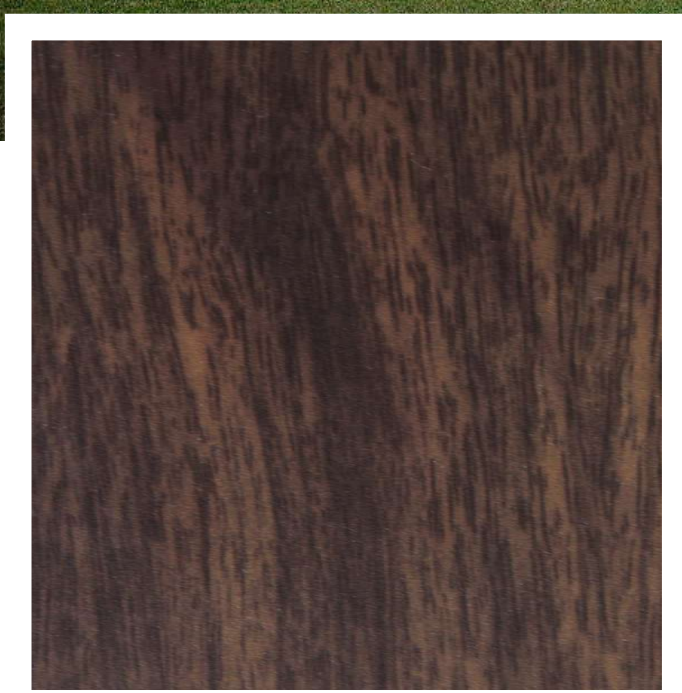

Therefore, we offer 'Natural Coatings' which are not only maintenance free and long lasting but also offers true value for money. Be it a specimen of any type of wood, veneer or marble, we use sophisticated computer scanning and graphic techniques that will offer you the same texture on any substrate and make it look natural. These coatings are warranted for external use and can be done on any surface.

Our Offerings:

- Pino
- Ciliegio Mediterraneo
- Ciliegio Salonicco
- Teak
- Noce
- Quercia
